

TECHNICAL DATA

Specification

Description	Eye, ear and dust protection
-------------	------------------------------

Diameter	N/A
----------	-----

Length	0.0"
--------	------

Useable Length	N/A
----------------	-----

BENEFITS

Wave design transfers energy to bit more effectively for up to 40 percent faster drilling versus previous design

Carbide-tipped centering bit

Asymmetrical carbide teeth for faster cutting, longer life

All-in-one core transmits power directly to the end of the bit
