Specifications:

Flange

- Bright white powder painted steel flange and ball
- No light leaks around trim flange
- Covers irregular ceiling opening

Trim

- Steel construction
- Multi-grooved metal baffle
- Designed for 75w R20 and 50w PAR20 or PAR16 lamps
- Built-in bracket to accept Trim-Lok spring
- Trim-Lok action forces trim to fit snugly against the ceiling
- Socket mounts directly to top of ball for consistent lamp position

- Ball tilts 30 Degs. and rotates 358 Degs.
- Can be used in 45° sloped ceilings with P87-AT, P87-ATQC, and P187-TG housings

Options

- White baffle - specify "28" after catalog number
- Black baffle - specify "31" after catalog number

Labels

- UL-CUL damp location listed

Photometrics

- Refer to R20, PAR20 & PAR16 Lamp Application Data

Walls and Vertical Objects

H	Height from ceiling to center of beam
D	Distance from fixture to wall
F.C.	Footcandles at center of beam
L	Length of effective lighted area
W	Width of effective lighted area
S	Spacing of multiple fixtures to effectively light wall
*	Length of lighted area is in excess of 30 feet

Data assumes a maximum tilt of 30 degrees.

For horizontal surface data refer to Lamp Application Data sheets.
