

When wires become entangled they are safety hazards for both the equipment and the owner. Protect electrical hoses, wires and cables from cuts, abrasions and UV damage with this Gardner Bender 3/8 in x 10 ft flexible tubing. This tubing is split down the middle to accommodate wire breakout.

- Manages and protects cords for electronics, under hoods or in trailer wiring
- Quickly and easily wraps around wire
- Corrugated for added flexibility
- Split down the middle for easy installation
- Tube can be cut to shorter lengths as needed
- Black flex tubing
- Keeps wires together and maintains bundle up to full 10 foot run but can be cut to shorter lengths as needed
- Temp range of -40 F to 275 F (-40 C - 135 C)
