

ArmorEDGE wire stripper by Gardner Bender is designed to strip and cut solid and stranded wire. Envisioned to provide the user with the ultimate comfort and control these strippers offer ergonomic cushioned handles with dual gripping positions for traditional or forward hand positions ensuring this tool is comfortable to use all day long. Easy to read laser-etched markings make it a snap to choose the right groove for the application while the stainless steel body and double bevel cutting blades offer superior corrosion and nick resistance. Wire looping holes strategically integrated into the blades allow the user to quickly loop wire ends to fit on screw terminals and the serrated plier nose makes quick work of grasping, gripping and pulling. Cut and strip #8-#20 AWG solid wire , #10-22 AWG stranded wire, and crimp insulated and non-insulated terminals and coaxial "F" connectors. Cuts bolt sizes 4-40, 5-40, 6-32, 8-32, 10-24 and 10-32. With a limited Lifetime Warranty and a wide array of outstanding features this is an essential wire stripper for every toolbox.

- Cut: Mild steel, brass, copper, and aluminum wire
- Strip: 8-20 AWG Solid, 10-22 AWG
- Grip: Precision ground plier nose
- Crimp: 10-22 AWG insulated and non-insulated terminals, coaxial connectors
- Form/Loop: Precision nose and wire looping holes
- Bolt Cutting: 4-40, 5-40, 6-32, 8-32, 10-24, 10-32
- Ergonomic, high-leverage, Dual GRIPTM handle design
- Stainless steel, hardened cutting blade
- Easy-to-read laser-etched permanent markings
- 8 1/4" in length
- Symmetric handle
