

Product Details

The DeWALT DWA2T40IR 40 Piece Impact Ready Screwdriver Set now comes in ToughCase+ system, the latest addition to DeWALT's accessory storage line. The ToughCase+ system is a connectable case system designed to optimize storage space and keep your bits organized. The bit-bar design of the screwdriver set allows for easy bit removal and the clear lid allows you to see inside at a glance. This screwdriver set delivers exceptional performance for extreme torque applications. FlexTorq bits feature an Extended FlexTorq Zone to transfer optimal torque in hard joint applications, providing durability & longer life. The bit tip is CNC machined for a precise fit, reducing cam-out under torque. Small bulk and small ToughCase+ sizes of the screwdriver set are available now. Get the job done right with this connectable screwdriver set!
