

Primary Material Application Steel

Materials Cut Metal

Arbor Design Built-In

Tooth Material Bi-Metal

Saw Dia. 7/8 in

Teeth per Inch 10

Max. Cutting Depth 1/2 in

Impact Rated Yes

Shank Size 1/4 in Hex

Pilot Drill Size 5/32 in dia x 3 in L

UNSPSC 27112826

Country of Origin USA (subject to change)

Product Description

These metal-cutting hole saws have a permanently attached arbor. They are used when workers repeat the same cuts often and don't need to use the arbor on other tools. Arbors attach to a hole saw to mount the saw in the drill and attach a pilot bit.
