HIGHLINE
PRODUCTS

Highline's Polymer Concrete products exceed all industry standards. Additionally we utilize our patented NUTN21T® cover fastening system. This is the industry's only truly field replaceable system.

Highline Products is also your one-stop source for all your underground enclosures and pads. We make products such as:

- Fiberglass Single and Three Phase Transformer Box Pads and Flat Pads
- Switchgear Box Pads
- Primary Sectionalizing Cabinets
- HDPE (plastic) Pull/Splice Boxes
- Fiberglass Groundsleeves
- Poletop Extensions
- Polymer Concrete Flat Pads
- Secondary Pedestals

Visit our website, www.highlineproducts.com to see a complete product listing or to request a catalog.

CHA-SERIES

PULL BOXES/SPLICE BOXES

- Combination of a fiberglass base with a polymer concrete ring and cover.
- Contactor friendly; lighter than 100% polymer boxes, flared design offers greater working area compared to straight walled units.
- Easy to field adapt.
- Tier 8 and Tier 15 load rating.
