

Cut Level 3 Insulated Gloves -L

The Milwaukee® large ANSI cut level 3 winter insulated work gloves provide all-day warmth and comfort, and best in class dexterity for handling small objects. The insulated winter work gloves have a warm acrylic terry liner to maintain warmth in the coldest outdoor conditions. The gloves' secure dual thermal liner to comfortably keep hands warm without the liner separating after extended job site use. These gloves have a 15 gauge nylon outer liner for high dexterity fingertips and breathability. The cut resistant work gloves are ideal for demolition, wire-stripping, and pipe threading applications. Milwaukee Tool's gloves are constructed of 3/4 double-dipped latex palm micro-finish for water resistance and best in class grip performance.
