COM-PAK
Perfectly simple warmth for any room

Get warm on your terms with our most popular wall heater. The Com-Pak is an efficient, affordable way to add warmth without installing ductwork. Our hard wired heaters have proven safety features and multiple installation options, so your family can enjoy safe, sensible warmth for years.

- Efficient, quiet fan
- Warm up in a hurry with a fast-heating element
- Unique compact design is recess mounted into your wall to suit any room
- All metal surfaces are powder-coated paint to remove sharp edges and provide a durable finish
- Easy to install
- Rest easy – includes high temperature safety shutoff
- Available with or without built-in thermostat

ARCHITECTURAL - ENGINEERING INFORMATION

Fan forced up flow electric air heaters are ETL listed, factory rated at 120V, 208V, and dual field rated 208V/240V. A powder coated 20 gauge wall mounting can with six knockouts and 34 cubic inch wiring compartment is provided with each complete heater. Each complete heater is powder coated, of unitized construction and attaches to the wall can with a single screw and is self-contained and completely separate from the wall mounting can. Element is of nichrome type wire wrapped on mica insulators with a 16 amp rated, at 240V, high temperature manual power reset limit switch, and a one-time over temperature thermal back-up fuse, both located on the element board in the heated air flow for faster response time to abnormal conditions. A two stage centrifugal blower delivering approximately 40 to 55 CFM is driven by an impedance protected motor. The motor is totally isolated from the heating chamber. Metal grill is of one piece, 20-gauge construction and finished with a powder coat paint system.

TECHNICAL INFORMATION

UL safety standards require the heater to be placed a minimum distance of 3/4 inches (1.9 cm) from adjacent surfaces and 4-1/2 inches (11.4 cm) from the floor. Manufacturer recommends installations 12 inches from all surfaces for longer and cleaner performance. All models 1500 watts or less may be ceiling mounted. A 3-foot (91.4 cm) minimum clearance is required for furniture or other objects placed directly in front of the heater.

Electric wall heaters and thermostats work best when installed on an inside wall.

- Com-Pak wall heater
- With wall can
- Wattage: 20 = 2000
  - 15 = 1500
  - 12 = 1250
  - 10 = 1000
  - 07 = 750
  - 05 = 500
- Voltage: 1 = 120
  - 2 = 240/208
  - 8 = 208
- Includes thermostat
- Color: W = White
  - A = Almond

If horizontal mounting is preferred for heater assemblies without thermostat, use model CMGA or CMGW.
