

CHANNELLOCK® High Leverage Diagonal Cutting Pliers feature Xtreme Leverage Technology (XLT™) which makes cutting easier than ever. By positioning the rivet closer to the cutting edge, considerably less force is required to cut than other high leverage designs. State-of-the-art laser heat treating offers a strong and consistent pattern across the cutting edge for increased strength and longevity. These pliers also offer a slimmer, lighter, and better-balanced design for maximum performance and accessibility. CHANNELLOCK® Diagonal Cutting Pliers are made in USA and forged from high carbon U.S. steel that is specially coated for ultimate rust prevention.

- XTREME LEVERAGE TECHNOLOGY (XLT™) increases performance and reduces hand fatigue
- LASER heat-treated cutting edges perform better and last longer
- PRECISION-machined knife and anvil style cutting edges ensure perfect mating for superior performance and longevity
- FORGED high carbon U.S. steel for maximum strength and durability is specially coated for ultimate rust prevention
- CHANNELLOCK BLUE® grips for comfort
- 100% MADE IN USA
