

This newly-enhanced, mobile Hex Hammer Truck is an ergonomic and lightweight hammer cart for our 1-1/8 in. Hex Pavement Breakers (D25980 and D25960). The new design secures breakers with a heavy-duty steel gate, and can safely store vertically or horizontally with the breaker attached. It features large, jobsite-grade rubber wheels for transport, and comes with a self-sharpening bull point chisel, self-sharpening cold chisel, and scaling chisel.

Features

Carry up to 4 pieces of 1-1/8 in. hex breaker steel on board

Heavy-duty steel gate secures the breaker onto the truck, no more straps

Store vertically or horizontally with the breaker attached

Large, durable rubber wheels make transport around the job easy

New self-sharpening steel provides greater breaking performance, optimizes dust collection, and lasts longer than generic demolition steel

Includes
