

- Special silicon carbide grain formula provides excellent cutting action on masonry, concrete, stone and aggregate
- 40% longer life than general purpose concrete wheels
- Wheels are constructed with the highest quality fiberglass to withstand the toughest applications
- Heavy Duty Wheels: Designed with greater amounts of reinforcement for use on high-speed power saws
- Type 1/Type 41 shape for square, burr-free cutting

The Big M.A.C. Heavy Duty has a special silicon carbide grain and greater amounts of reinforcement for use on high-speed power saws to cut masonry, asphalt and concrete. Provides superior cutting action and 40% longer life than general purpose concrete wheels. Constructed with the highest quality fiberglass to withstand the toughest applications. Type 1/Type 41 shape for square, burr-free cutting. Used for masonry, asphalt, concrete, stone and aggregate. Package of 10. *Note: 20% restock fee on all SAIT/United Abrasives returns.

Series: Big M.A.C. Heavy Duty

Application: Masonry/Asphalt/Concrete

Diameter: 14"

Thickness: 1/8"

Max RPM: 5,400

Material: Silicon Carbide

Type: Type 1
