The Lenox® Advantage™

Lenox Tri-Fold® saws are small enough to fit comfortably in your pocket, yet versatile enough to cut through any type of material. It locks into three different positions for cutting anything from wood to drywall, to stainless steel at any angle. Any reciprocating blade with a standard 1/2" (13mm) tang can be used in the saw. The saw features a heavy-duty aluminum handle, a comfortable hand grip and a fold away blade for safety and convenience.

The Lenox PVC/ABS hand saw's wide, rigid carbon steel blade with hardened teeth will breeze through any diameter plastic pipe, wood and nail-embedded wood. Its heavy-duty, lightweight aluminum handle features a comfortable hand grip and a large opening for maximum finger clearance, allowing room for work gloves.
