

M12™ Multi-Tool (Tool Only)

4.0 (146) [Write a review](#)

Our M12™ Multi-Tool offers versatility, power, and control to complete problematic job site applications. The multi-tool is ideal for remodelers, flooring contractors, maintenance repair technicians, and electricians. It allows you to perform cuts, grinds, sands, and scrapes at odd angles and in difficult work areas. The cordless multi-tool is powered by our M12™ REDLITHIUM Battery (sold separately) to give you up to 25% more runtime than the competition. You can use the multi-tool to make flush or plunge cuts, remove grout, sand and tackle other awkward jobs. It operates from 5,000 to 20,000 OPM and allows you to match the speed to the application. An all-metal gear case provides added durability, while the over-molded, ergonomic handle allows you to handle the tool with extra control. The cordless tool comes bundled with 5 assorted sanding sheets, a sanding pad, and a wood cutting blade.
