

Durable and easy to use, the Milwaukee 48-40-4515 8 in. 42 tooth blade is designed to cut a variety of ferrous materials 3/32 inch and thicker, including pipe, angle iron, steel studs and conduit. The blade has vibration damping which reduces heat, sparks and noise for cleaner, smoother, burr free cuts. With a hardened steel body, this blade will stand up to the toughest jobs, while giving the cleanest cuts.

## **Milwaukee 48-40-4515 Features:**

Ideal for cutting stainless steel, aluminum, strut, allthread

Designed for cutting stainless steel

Cermet carbide to maintain tip sharpness

Laser cut vibration dampening slots to minimize heat, sound, and noise

Laser cut blade to reduce wobble and vibration

Engineered with cermet carbide for extreme cutting life

Designed for clean cutting in ferrous metals with a burr free finish

Cuts cooler for immediate handling and less down time
