

- 1 year limited warranty; calibration accuracy warranted for 90 days
- NIST Certificate of Calibration included. Certificate of Calibration is the documentation of the actual calibration of the torque wrench and includes the model number, serial number, date, actual readings, type of test equipment, and test equipment calibration standards.
- Thin profile, sealed, teardrop head design offers improved access and durability for highly effective application
- Scale markings are highly visible and easy to read
- Pull adjustment collar feature allows you to make quick and easy torque setting changes
- Knurled anodized aluminum handle lets you grip the wrench comfortably, helping to reduce hand fatigue
- Torque accuracy of +/- 3% CW between 20% and 100% of wrench capability
- Meets or exceeds ISO 6789 and ASME B107.300-2010 standards and specifications
- Midpoint on handle clearly marked for accuracy
