Weatherproof Receptacle Covers

Flexi-Guard Weatherproof
Plastic While-In-Use Covers

Intermatic's weatherproof covers are easy to install, offer flexible options and reduce the amount of inventory needed to cover the project.

Features:
- Complies with 2008 NEC Article 406.8 (B)
- Packaged with 3 patented inserts for GFCI, duplex, toggle or round receptacles
- Two-gang models include 6 snap-together, rotating inserts that create 70 combinations to fit almost every application. See page 93 for insert options
- Single-gang covers mount both vertically and horizontally by switching the hinge points
- Clear or white cover
- Heavy-duty polycarbonate construction
- Inserts include keyhole slots for up to 14 installation configurations
- Pre-adhered gasket
- Meets requirements for cold impact testing at -60° F (-51°C)
- Lockable hasp for .250 in. (6.35 mm) shank lock — WP1100C and WP1100WC only
- Lockable hasp for .125 in. (3.175 mm) shank lock — WP3100C and WP3103C only
- Hidden hinges — WP3100C and WP3103 only
- Easy to remove cord set exit ports — WP3100C and WP3103 only
- Max cord size for all covers: (2) 14 gauge AWG OR (1) 12 gauge AWG Except WP1250C and WP1150C: (2) 14 gauge AWG OR (1) 10 gauge AWG

Warranty: Limited 1-year warranty

Model	Description	Depth (in.)	Color	Cord Diam. (in)	Exit Port Length (in)
