- **Heavy Duty Canvas Tool Bag for convenient transportation and optimal organization**

The Metabo 4-1/2 in. HD Starter System - 8-Piece Angle Grinder Kit is the ideal set for Construction, Demolition, Fabrication work, and for common tasks around the Home or Garage. The Kit components are optimized for fast cutting, grinding, deburring, rust/material removal, and one-step blending/finishing in tough applications. The kit features a Metabo W 750-115, 4.5 in. Angle Grinder with Lock-on switch for extended runtimes. The tool is designed for increased overload capacity under heavy loads in tough applications such as weld preparation, grinding and brushing weld seams, metal removal, cutting rod, angle iron and pipe. The convenient heavy duty canvas tool bag keeps tools and accessories organized and available when needed. The tool bag has a spacious main compartment, 6 organizer pockets for proper tool and accessory stow-away, a securing loop for holding tools, and an ergonomic padded shoulder strap.
