

ADVANCED EDGE BOLT® RECIPROCATING SAW BLADES

The Morse Advanced Edge BOLT reciprocating saw blade cuts lightning fast. The patent pending design excels in applications of small solids and structural shapes.

BENEFITS:

- Use 0.035" blades for flexibility in tight spaces
- Use 0.050" blades accept heavier feed pressure
- Smooth cutting action
- Fast cutting
- Impact resistant teeth
- Long cutting life
- Heat and wear resistant

FEATURES:

- Available in 3/4" width and 0.035" and 0.050" thickness
- Variable tooth pitches
- Reinforced, positive rake tooth design
- Bi-metal construction
