

# Crescent

## 3-1/4 Drop Point Aluminum Handle Pocket Knife CPK325A

The Crescent CPK325A has a heavy-duty D2 steel drop point blade with a combination of cutting performance; blade strength; easy maintenance; and overall durability that makes it the perfect Every Day Carry. Its gray wash blade finish resists corrosion and provides a striking contrast to its natural anodized aluminum handle; which; in addition to its outstanding strength-to-weight ratio; is ergonomically designed to optimize hand and finger contact points for enhanced fit and superior control. Precision ball-bearing flipper action provides smooth blade deployment; while a full metal core and liner lock design assures secure locking of the blade in the open position and easy closing. A deep pocket carry clip keeps the CPK325A well concealed; yet always accessible.

### FEATURES:

- Heavy-duty D2 steel blade provides excellent strength; edge retention; and overall product durability.
- Smooth action heavy-duty ball bearing system provides quick and easy blade deployment for the life of the tool.
- Ergonomic handle optimizes hand and finger contact points to maximize fit; control; and user ergonomics.
- Drop point blade design provides tip strength and overall blade durability for a variety of cutting applications.
- Easy action flipper tab for easy blade deployment. Liner lock mechanism provides secure locking of blade in open position and easy closing action.
- Heavy-duty anodized aluminum handle provides excellent strength to weight ratio for optimal performance.
