

Product Details

- Record, Edit & Share to any Mobile Device
- Swap [Batteries](#) without System Shutdown
- Unmatched Versatility, Control Hub Swaps Between Reels

The [Milwaukee](#) M18 500GB Control Hub provides the most versatile pipeline inspection experience. Compatible with all Milwaukee Modular Pipeline Inspection Reels, the control hub easily swaps between reels and wirelessly connects to the M18 Monitor or any mobile device. Equipped with 500GB of internal memory, store and organize recordings on board, and easily share wirelessly to a mobile device or direct to a USB drive. Featuring a built-in transmitter, the M18 500GB Control Hub can energize the push cable for line trace capability, making it easier to locate the camera head when in a sewer line. The control hub is also equipped with ONE-KEY Technology, providing the ability to track the tool's location, manage it in inventory, and lock the tool out to help protect your investment.

- Up to 200' of wireless connectivity
- On board USB port allows for saving findings on memory stick
- One-Key technology allows for tracking, tool security, and inventory management
