

Makita Impact GOLD is new innovation in fastening with a full line of insert bits, bit holders, nutsetters, socket adapters, and more. Impact GOLD is designed exclusively for use with high-torque impact drivers, and is engineered with high-strength steel for longer life. Makita Impact GOLD Insert Bits are engineered to last up to 60-times longer than standard insert bits.

The Impact GOLD Torsion Magnetic Insert Bit Holder and Insert Bits feature Xtreme Torsion Technology, which allows the torsion section of the bit and bit holder to flex under load and take pressure off of the bit tip for increased durability in high torque applications. The two-piece bit-holder design is engineered to allow the torsion technology to fully activate.

The Makita Impact GOLD Torsion Magnetic Bit Holder and Insert Bits are ideal for driving screws in a wide variety of demanding applications including deck building, framing, installing plywood subfloor, and more.

Includes

(1) Makita B-27159 Torsion Impact Multi-Bit Set - 11 Piece

Technical Data + Specifications

Bit Material: Steel

Drill Bit Type: Screwdriver

Drill Bit Type(s) Included: Screwdriver

Drive Style: Combination

Impact Driver Capability: Impact Rated

Individual/Set: Set

Material Application: Wood

Number of Pieces: 11

Returnable: 30-Day

Shank Style: Hex

Tools Product Type: Power Tool

Benefits + Features

Impact GOLD insert bits last up to 60X longer than standard insert bits

Xtreme Torsion Technology is engineered to allow the torsion section of the bits and bit holder to flex under load, taking pressure off of the bit tip for increased durability in high torque applications

Two-piece bit holder design is engineered to allow the torsion technology to fully activate

Magnetic bit holder for increased convenience

High-quality steel engineered for use with impact drivers
