

The DW331K Jig Saw Kit has a powerful 6.5 amp motor which delivers the performance needed for even the most demanding materials. With speeds between 500 to 3,100 strokes per minute and 4-position orbital action for faster, more aggressive cuts, this saw can hold up to a variety of applications. Also features an all-metal keyless shoe bevel with detents at 0°, 15°, 30°, and 45° and all-metal lever-action blade clamp for quick and easy adjustments and blade changes as well as an integrated dust blower for cut line visibility.

Features

Powerful 6.5 amp motor delivers the cutting power needed for the most demanding materials

Variable speed delivers 500 - 3,100 strokes per minute for optimal cutting speed for a variety of applications

Keyless, lever-action blade clamp for quick and easy blade changes

All-metal gear case and keyless blade lever enhance tool durability in a professional shop environment

4-position orbital action provides control of cut quality and speed

Positive bevel detents ensure accuracy at the most common angles 0°, 15°, 30°, and 45°

Extra-large rubber grip dampens vibration and provides comfort during prolonged use

Integrated dust blower maintains visibility of cut line

Non-marring plastic shoe cover protects soft or glossy materials from scratches from the shoe

Accepts T-shank blades for optimal holding power and professional results

Counter-balance mechanism reduces vibration and user fatigue

Applications

Straight or bevel cuts in wood, metal, fiberglass or plastic

Coping trim molding

Sink and outlet cutouts

Flush cutting counter tops

Back cutting a scribe line on a countertop

Cabinet Notch Cuts

Curved cuts in sheet metal

Includes

(1) DW331 Jig Saw

(1) Kit Box
