With a history of over 100 years, Crescent® is holding true to the fundamentals that have made it one of the most trusted names in hand tools and storage solutions worldwide. Crescent is committed to consistently delivering products that exceed customer expectations for quality, durability, performance, and value. The first hand tool created by the company's founder Karl Peterson was the revolutionary open-end adjustable wrench that became one of the most essential tools in the toolbox of generations of professional tradesmen. In the years that followed, Crescent introduced many improvements, making its wrenches lighter, stronger, and more versatile. The brand also grew to include many more sizes and types of adjustable wrenches, plus a wide selection of pliers, screwdrivers, mechanics hand tools, and toolsets.
