

Milwaukee 1" EMT Aluminum Conduit Bender

The MILWAUKEE® 1" Aluminum Conduit Bender features high contrast markings for the best visibility to easily and accurately make bends. A reinforced hook and pedal and lightweight aluminum shoe provide added durability while a secure double bolted handle won't loosen after repeated use. The conduit pipe bender shoe features the most bending references as well as a wear-resistant reference chart for easier use. Offset multipliers are featured on the shoe while 30°, 45°, and 60° center of saddle bend notches and a back of 90° bend indicator easily and accurately bend conduit. The iron bender is best for with 1" EMT, 3/4" Rigid, and 3/4" IMC conduit.
