

# DESCRIPTION

---

Our Milwaukee® BIG HAWG™ with carbide teeth arbor is the best solution for our BIG HAWG™ hole saws. The 7/16 in quick change arbor is designed to hold both a hole saw and pilot bit securely in place while working on heavy duty applications. The arbor features exclusive bit geometry that holds all drilling parts secure while also allowing for easy bit removal.

Milwaukee® BIG HAWG™ Hole Saw Arbor, 7/16 in Arbor, 3-Flat Shank, 1-3/8 in Hole Saw Dia, 7/16 in Pilot Drill, 6-9/16 in Overall Length, Carbide Cutting Edge, Steel, Black/Silver, Applicable Materials: Wood

## Features

- Exclusive bit geometry aids in plug removal
- Cuts 1000+ more nails
- Carbide tipped for fast drilling in nail embedded wood and abrasive materials
- 50X life in nail embedded wood and abrasive material applications
- 5X faster cuts
