

JM-1000 Mini-Jet™

Mini-Jet – Mini Price

The lightweight, compact JM-1000 Mini-Jet gives you 1500 psi of cleaning power, yet weighs just 23 lbs. Clear grease, sand, and ice from 1-1/2" to 3" lines. The pump and motor assembly are safely contained in a rugged metal diamond plate case that can handle abuse in the field.

Water jets use a stream of high pressure water that hits the stoppage and flushes it away. The thrust of the nozzle drives the hose down the line and gives you wall to wall cleaning action.

Pulse helps the hose slide around tight bends and farther down the line. This is what separates General's Jet-Set from ordinary pressure washers. It breaks the initial tension between the surface of the hose and the walls of the pipe, increasing cleaning power.

The JM-1000 Mini-Jet generates 1500 psi at 1.4 gpm, yet pulls only 13 amps. The pump and motor are enclosed in a metal housing and protected by a 3-wire Ground Fault Circuit Interrupter.

A Water Sensor "senses" the moving water and automatically shuts off the motor if water isn't flowing through the pump to protect the unit from damage.

Pound for pound and dollar for dollar, the Mini-Jet is a great (and small) investment.

The lightweight, compact Mini-Jet weighs just 23 lbs. so it's small enough to store conveniently in your truck.

The toughest tools down the line.™

JM-1000 Mini-Jet™

Features:

- Compact, lightweight unit weighs just 23 lbs.
- Clear grease, sand, and ice from 1-1/2" to 3" lines.
- Generates 1500 psi at 1.4 gpm, yet pulls only 13 amps
- Pulse helps hose slide around tight bends and farther down the line.
- Water Sensor “senses” moving water and automatically shuts off motor if water isn’t flowing.
- Rugged metal diamond plate case can handle abuse in the field.
- Rubber feet under the case protect kitchen counter top.

Mini-Jet includes Super-Flex™ high pressure jet hose, 4 pc. nozzle set, water supply hose, shut-off valve, universal faucet adapter and threaded faucet adapter.

Accessories:

Jet Nozzles

Four piece nozzle set includes penetrating nozzles with and without forward jet, flushing nozzle, and spring leader nozzle.

Jet Hose

Super-Flex™ 1/8" hose has the flexibility to get through 1-1/2" to 3" lines and bends, and is available in 30 and 50 ft. lengths.

Spray Wand (Optional)

Get a spray wand and use your jet for high pressure washing and cleaning applications. It comes with two wands – the Turbo Lance and the High/Low Lance with adjustable spray nozzle. (Catalog # SWA-1000)

JM-1000 Mini-Jet Units:

Catalog No.	Description
JM-1000	Basic Unit: 13 amp motor w/ GFCI, 1500 psi/ 1.4 gpm pump, Rubber Gloves (no hoses or nozzles)
JM-1000-A	JM-1000 Basic Unit + 30JH00 (30 ft. x 1/8") Hose, JN-0 Nozzle Set, Water Supply Hose, Shut-Off Valve, Universal Faucet Adapter and Threaded Faucet Adapter.
JM-1000-B	JM-1000 Basic Unit + 50JH00 (50 ft. x 1/8") Hose, JN-0 Nozzle Set, Water Supply Hose, Shut-Off Valve, Universal Faucet Adapter and Threaded Faucet Adapter.
