

Closet Augers

THREE FOOT FLEXICORE®

Guaranteed to go through any bowl or money back!*
Also guaranteed against manufacturing defects for a full year. This warranty includes damage to the cable, as well as the Closet Auger's other components.

Two layers of tempered spring steel are coiled tightly over a core of 42-strand wire rope. It gives the tool tremendous resistance to kinking.

The flexible down head follows bowl contours; springs through sharply angled passages while protecting inner walls from chipping or breaking.

*Down Head models only

Catalog Number		Weight Pounds
3FL-DH	Down Head	4-1/2
3FL	Regular Head	4-1/2
3MFL-DH	Music Wire with Down Head	4-1/2
3MFL	Music Wire with Regular Head	4-1/2

DOUBLE SPRING CONSTRUCTION

SIX FOOT TELETUBE™

Makes conventional six foot augers obsolete, because it has three feet telescoped into a guide tube until you need it. After you've worked the first three feet into a bowl, you can go three feet farther simply by pressing a button and pulling the crank handle.

Outer tube is a big 1-1/8" in diameter; guide tube is even tougher than the steel rod we use in our 3FL closet augers. Teletube weighs just a little more than a 3FL.

Other features include vinyl bowl guard, vinyl grip handle, die cast aluminum turning handle, and "Grip Clip" for attaching cable.

Catalog Number		Weight Pounds
T6FL-DH	Down Head	5-3/4
T6FL	Regular Head	5-3/4
