

Product Overview

Your Pico remote control is always in reach when it's attached to your car's sun visor using the Car Visor Clip. Simply place your Pico Remote control (sold separately) into the visor clip and attach it to the visor. Now you're ready to turn on the lights from the safety of your car as you arrive home.

Features:

- Car visor clip holds one Pico remote control
- Clip onto your car visor for convenient light control from your car
- Pico remote control sold separately
