

Our M18™ Utility Remote Control Search Light Kit w/ Portable Base is the first of its kind, allowing Power Utility users to SPOT LINES and FLOOD FIELDS from up to 1,250 yards away. This cordless light performs with up to 4,250 Lumens of TRUEVIEW™ High Definition Output and adapts to provide either spot or flood mode and the option to use with a permanent or portable magnetic base. Also included is a pre-paired wireless remote control that enables the light to rotate, adjust, and power from afar. This light is also ONE-KEY™ compatible, making it controllable via the ONE-KEY™ online app. The MILWAUKEE® Utility Remote Control Search Light is weather-resistant to survive outdoor use.
