

Product Dimensions: 2.55" H x 1.45" W x 1.45" D

This indoor/outdoor light control turns compact fluorescent, LED, halogen, and incandescent bulbs on at dusk and off at dawn, deterring intruders by simulating home occupancy. It includes a removable lens shield to block light reflection and reduce blinking and features a spring loaded contact that allows for proper positioning of the sensor.

- Turns compact fluorescent, LED, halogen, and incandescent bulbs On at dusk, Off at dawn
- Includes removable lens shield to block light reflection, reducing blinking
