

Model 975 Combo Roll Groover

The new, Model 975 Combo Roll Groover is two tools in one! Like other RIDGID® groovers, the 975 mounts on the RIDGID 300 Power Drive for machine grooving jobs, but it is also designed to manually groove in-place pipe.

Auto Tracking And Depth Setting Gauge Means Easier Use

The 975 Combo Roll Groover includes new, patented auto tracking technology for significantly easier grooving. Whether you're doing machine or manual grooving, auto tracking keeps the pipe automatically engaged to the groover throughout the grooving process. The 975 also comes with a permanently-fixed depth setting gauge for quicker, repeatable set-up.

Less Hand Force

For manual grooving, the 975's 55% higher gear reduction means less hand-force is required versus competitive manual groovers. This is especially helpful for overhead grooving.

Durability And Portability

A tough, ductile iron construction means the 975 can absorb job site abuse and provide accurate grooves time after time. And its cast-in handle makes the 975 easily portable to and from the job site.

Specifications

Pipe Capacity: 1 1/4" – 6" Schedule 10 and Schedule 40 Steel, Aluminum, and PVC Pipe; 1 1/4" – 6" Schedule 10, 1 1/4" – 2" Schedule 40 Stainless Steel Pipe, 1 1/2" – 4" Schedule 80 PVC Pipe; With Roll Change 2" – 8" Copper Tube (Type K, L, M, and DWV)

Depth Adjustment: Adjusting screw and integral, index depth gauge

Actuation: Feed screw with 1/2" ratchet wrench (included) or any 15/16" hex

Power Drive Mounting: RIDGID 300 Power Drive 38/57 RPM or RIDGID 300 Compact with Adapter 67662

Weight: 26 lbs.
