

Cable Entrance Plates and Hood

Reversible • Non-metallic • Cable protection at its best

CE1
w/ plate
facing IN

CE2
w/ plate
facing OUT

Installation Instructions

Install one of Arlington's low voltage mounting brackets (not supplied) at entry and/or exit locations.

Use **LV1** for the single-gang **CE1**, and **LV2** for the two-gang **CE2**.

1 For entry location: Use the mounting bracket as a template, and cut hole for entry location. Feed wires into the cable entrance

plate. Make sure that the hood is in the desired orientation; facing in or out.

2 For wire exit: Install low voltage mounting bracket (repeat above instructions). Fish wires from behind the wall surface and pull through the bracket. Feed wires into **CE1** or **CE2** with the hood in the correct orientation (in or out).

3 Attach both (entry and/or exit) cable entrance plates to the **LV1** or **LV2** mounting brackets.

4 Connect wires to electronic equipment.

CE2
w/ plate
facing IN

Arlington's new REVERSIBLE entrance plate not only protects cable, but delivers good looks and installation versatility.

Use it facing IN – or OUT. It's easy to install. And, it's the best way to run cable where you want it.

- Non-rusting, paintable plastic
- Versatile, easy to use
- Install facing in or out

Installation Instructions

Use one or more of Arlington's low voltage mounting brackets (not supplied) to install The SCOOP™ – the single-gang LV1, two-gang LV2, three-gang LV3 or four-gang LV4.

1 Use the mounting bracket as a template, then cut hole for entry location. Attach the mounting bracket to the wall.

2 Feed wires through The SCOOP™ (CED1), with it facing in or out, as desired. Attach to the mounting bracket with the supplied screws. Repeat as many times as necessary.

3 Connect wires to electronic equipment.
