

MASTER COBALT

The variable pitch teeth on these premium bi-metal portable band saw blades reduce vibration when cutting. Features Matrix II cutting edges and the longest life compared to any competitive blades. Available in several lengths.

APPLICATIONS:

Machinable metals

Stainless steel

Pipe

Tubing

Solids

BENEFITS:

Shock resistant teeth great for cutting machinable metals

Variable pitch allows a broader range of applications and reduced vibration

Straight pitch teeth for better chip clearance and fast cutting

Available in a variety of lengths for any portable saw on the market
