MK Morse MHSG40 Description

Tungsten carbide tooth tips offer the highest wear resistance possible for fast holes and longer life cutting abrasive materials. Cutting depth is 1-1/2". Arbor required.

MK Morse MHSG40 Includes

- (1) 2-1/2" Carbide Grit Bi-Metal Hole Saw

MK Morse MHSG40 Features

- Special tooth design for very fast hole saw cutting
- Ground and set teeth help to cut materials that bi-metal saws will not cut
- 3 teeth per inch creates a wider gullet for better chip clearance and faster cutting
- New cap reduces runout and vibration
- Patent Pending tooth set design, optimized to remove material faster
- New side slot, increased leverage for aster, easier slug removal
- Cutting depth increased 18 percent over AV MHSG40

MK Morse MHSG40 Specifications

Diameter	2-1/2"
Material	Bi-Metal
Cutting depth	1-15/16"
