

INCLUDES

- (1) 5 In. Angle Grinder
- (1) Backing Flange
- (1) Lock Nut
- (1) Spanner Wrench
- (1) Grinding Guard
- (1) Vibration Control Side Handle

BENEFITS

- Powerful motor – 13 amps and up to 11,500 RPM
- Variable-speed setting – 2,800 RPM to 11,500 RPM – to match speed to application
- Carbon brushes – more durable than previous-generation brushes
- Direct-motor cooling for higher overload capabilities
- Constant electronics – level operation and reliable speed under load
- Two-position Vibration Control side handle for more user comfort
- Integrated acceleration sensor mitigates inadvertent recoil
- Directed air flow diverts dust from vital components
- Restart protection to guard against unintended startup
- Toolless, burst-protection adjustable guard for advanced user protection
- Service Minderbrushes – ensure preventative maintenance
- Large spindle lock for more convenient disc change
