

ABOUT MODEL

The 6" Wheel Guard is designed to divert sparks and debris during grinding applications. The collar installs quickly over the angle grinder and can be rotated to allow grinding from a comfortable position. It is made of high quality steel for durability and long life.

FEATURES

- Helps to redirect sparks and debris away from the user
- Installs quickly and easily for convenience
- Can be rotated to allow grinding from multiple angles
- Made of high quality steel for durability
- For use in grinding applications
